

Commando DC300Ri T3 SURFACE DRILLS

Technical specification

Commando DC300Ri is a hydraulic, self-propelled drilling unit on a 4-wheel, oscillated drive carrier, surface drilling unit with full radio remote control.

Typical applications for DC300Ri are road construction, demolition works, secondary breaking, foundation drilling, trenching and occasional bolting. Therefore DC300Ri is most often used by construction contractors, quarries and the municipal sector. Due to its versatility DC300Ri is a perfect machine for drilling and blasting contractor.
